

Solenoid valves for steam and high temperatures

2/2 way - Normally Closed - Diaphragm pilot operated

Fittings: G = 3/8" - 1"

Series **135**

N.C.

Normally closed

Coil energised - open
Coil de-energised - closed

General description:

PARKER series 135 solenoid valves are diaphragm pilot operated and therefore require a minimum differential pressure to operate.

They are used for **steam and superheated water**.

Electrical components are insulated from the moving parts in contact with the media and therefore series 135 valves are particularly suitable for demanding applications. Series 135 valves are **normally closed**.

Temperatures:

The working temperature for media is:

maximum **+180°C**

minimum **-30°C**

The maximum ambient temperature is:

+80°C

Coils:

For series 135 valves class "F" coils (**155°C**) are available encapsulated in thermoplastic containing 40% of glass fiber (types ZH).

All the coils are for continuous service, 100% E.D.

The rated voltage tolerance is:

±10% for A.C. power supply and

+10% -5%, for D.C.

The "Z" coil can be used on a.c. with a frequency of 50/60 Hz (dual frequency) and has Faston terminals for **DIN 43650A** connectors with protection to **IP65**.

Application:

Series 135 solenoid valves are ideal for automatic control of steam and superheated water in a wide range of applications such as those listed below.

- Dry-cleaning systems;
- Steam generators;
- Laundry systems;
- Sterilisers;
- Autoclaves;
- Plant food industry;
- Steam presses;
- Drying systems;
- Catering systems.

Installation:

The valves can be mounted in any position without jeopardising their operation. It is however advisable to install them with the coil in a vertical position above the body.

Series **135**

for: steam - superheated water

MATERIALS	• Valve body:	CW617N UNI EN 12165:98 brass stamping
	• Seals:	PTFE (Teflon)
	• Enclosing tube:	AISI 304 stainless steel
	• Plunger:	AISI 430F stainless steel
	• Spring:	AISI 302 stainless steel
	• Shading ring:	Copper
• Fitted sit:	AISI 304 stainless steel
